(Science, Technology, Engineering, Arts and Math)

STEAM (Science, Technology, Engineering, Arts and Math) activities are all about inspiring our next generation of inventors and innovators. Through these activities children can have huge amounts of fun by creating like an artist, designing like a technologist and building like an engineer, enhancing their critical and scientific thinking skills.

Activities such as pendulum paintings, ribbon rockets, toy car markers, glow stick paintings, shadow artwork, the egg drop and more will motivate and expand the children's knowledge of STEAM. Children will record their findings on iPads and record their discoveries to their parents through Seesaw.
